Lockdown and uneven rainfall hits tea crop, prices firm up at auctions

KOLKATA, JULY 23: Tea crop during the year has been affected due to the two-month lockdown in April and May and subsequent uneven rainfall in Assam, industry experts said.

As per the Indian Tea Association (ITA) estimates the production in north India, comprising Assam and north Bengal is down by 40 per cent from January to June as compared to the figures of 2019.

ITA secretary general Arjit Raha said: "We are awaiting the figures for July which will come in a few days." In Alipurduar and Jalpaiguri in north

Bengal lesser quantity of green leaf is being plucked due to large scale absenteeism which has affected production, ITA said. According to ITA, incessant rainfall in the two districts is causing frequent and intensive grid failure in the gardens leading to crop shortfall.

In some areas, the labour lines and the gardens are submerged under water, it said, adding that incessant rainfall across the month of July is dwindling the crop prospect as it has been already affected by the lockdown. CTTA, the body which monitors tea auctions in

Kolkata, said that the crop shortfall due to lockdown and rains is leading to firming up of tea prices. Calcutta Tea Traders Association (CTTA) chairman Vijay Jagannath said, "auction prices are firm and higher substantially over the last year". He said that the industry is starting at crop loss of around 200 million kg during the year and new price levels are established. According to him, prices of good quality tea has increased by around Rs 100 per kg in the domestic market. It is the same for the top quality of the beverage as well. Agencies

NEW DELHI, JULY 23: Flipkart on Thursday announced the acquisition of Walmart India for an undisclosed amount, and said it will launch 'Flipkart Wholesale' next month, as the homegrown e-commerce major looks to tap into the USD 650 billion B2B retail market in India.

Walmart India runs 28 Best Price wholesale stores in the country. The announcement comes a week after Flipkart had said it had raised USD 1.2 billion in funding from a Walmart-led investor group. In 2018, Walmart Inc had invested USD 16 billion for acquiring 77 per cent stake in the group. Flipkart Wholesale is a new digital marketplace focusing on addressing the business-to-business (B2B) segment in India.

This marketplace is going to effectively link sellers and manufacturers on one end and kiranas and micro, small and medium enterpris-

es (MSMEs) on the other end, Flipkart Senior Vice President and Head - Flipkart Wholesale Adarsh Menon told PTI.

The acquisition will help strengthen the capabilities to address the requirements of kirana and MSMEs, he said.

"The B2B market for finished goods is estimated to be worth USD 650 billion, which is largely the categories of fashion, grocery, general merchandise, large and small electronics," Menon said. Walmart, the world's biggest retailer, had entered India through a partnership with Bharti Enterprises for a cash-and-carry business that allows small businesses, kirana stores and hotels to buy in bulk.
